A photograph of a dense forest of coniferous trees, likely fir or spruce, shrouded in a thick, dark fog. The scene is moody and atmospheric, with the trees silhouetted against a lighter sky.

Your Future. Your Home. Our Promise.

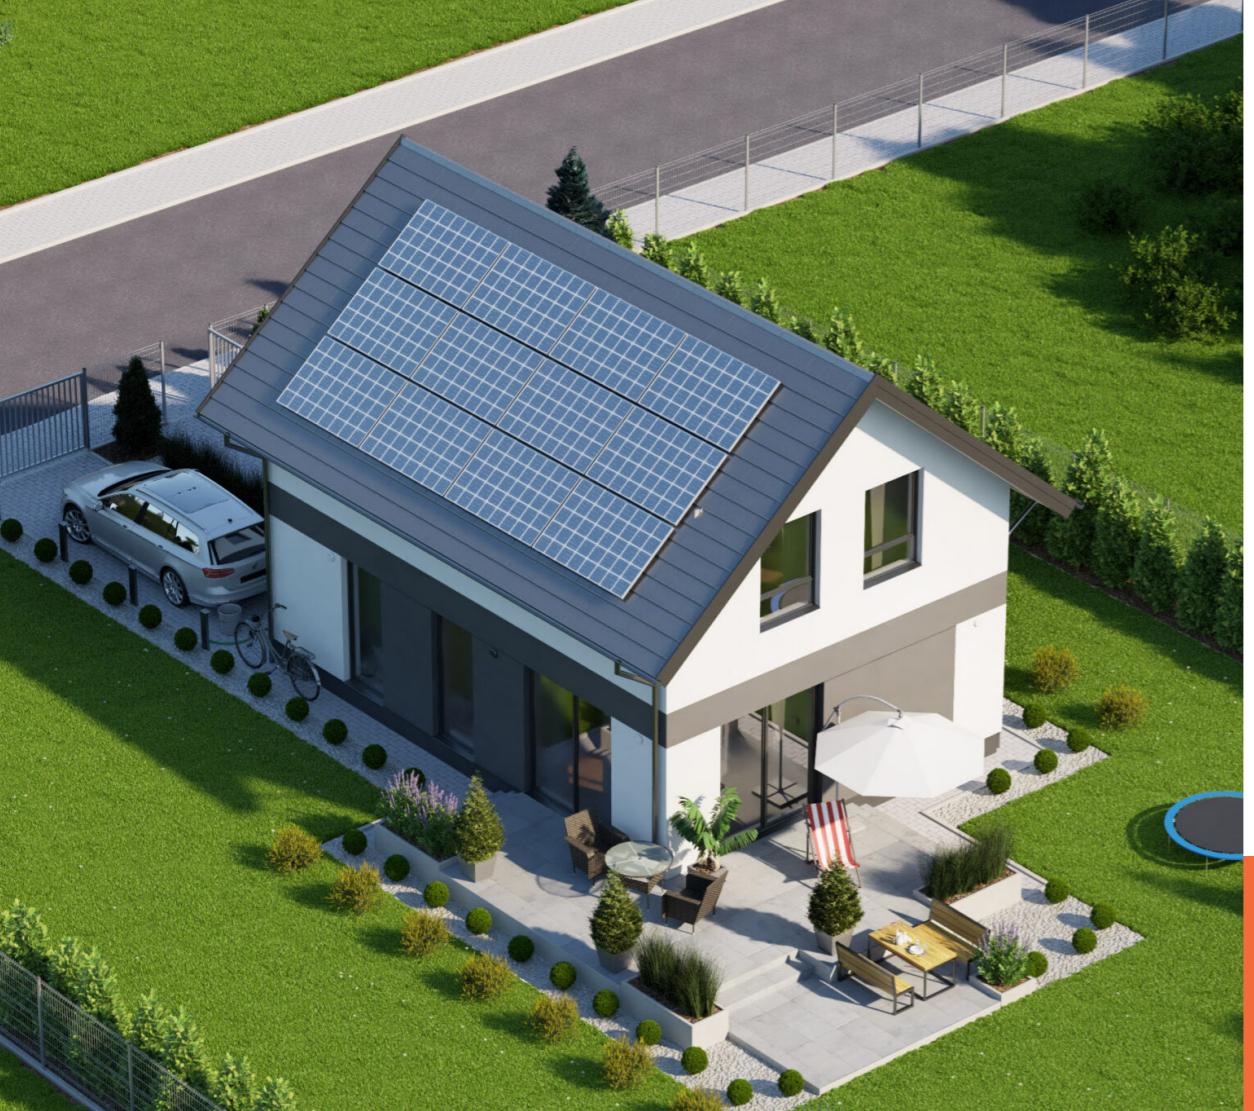

## ABOUT OUR OFFER

We present you with a range of top-quality wooden products. Our products are always one of a kind, natural alternative for furnishing and decoration of homes and gardens worldwide. Building on the experience gathered during the past 30 years of work in the industry, we are constantly improving the quality of products. We want our Clients, for whom we do it, to enjoy more and more healthy, environmentally friendly and comfortable life, with the beautiful, natural wood all around them. Every little detail in our products has been carefully thought through to include the maximum of environment-friendly materials. The full-blown design and rich color palette easily satisfy both, traditional, and modern tastes.

# MODULAR HOUSES

Our modular houses combine speed and efficiency with lasting quality. Thanks to advanced prefabrication, they can be assembled quickly on-site, significantly reducing construction time. Designed with high-performance thermal insulation, they ensure energy efficiency, year-round comfort, and lower operating costs.

## ANCONA

Made from prefabricated wood-based components and top-quality materials from renowned manufacturers, it guarantees safety, a healthy atmosphere for residents, and durability for years to come. The excellent insulation properties of the materials used, complemented by the latest solutions in heating, recuperation, and solar power generation systems, guarantee low operating costs. The house has a spacious, open living room with a dining area and kitchenette, a utility room with a boiler room, 3 bedrooms in the attic, and 2 bathrooms (on the ground floor and in the attic).

## SALAMANCA

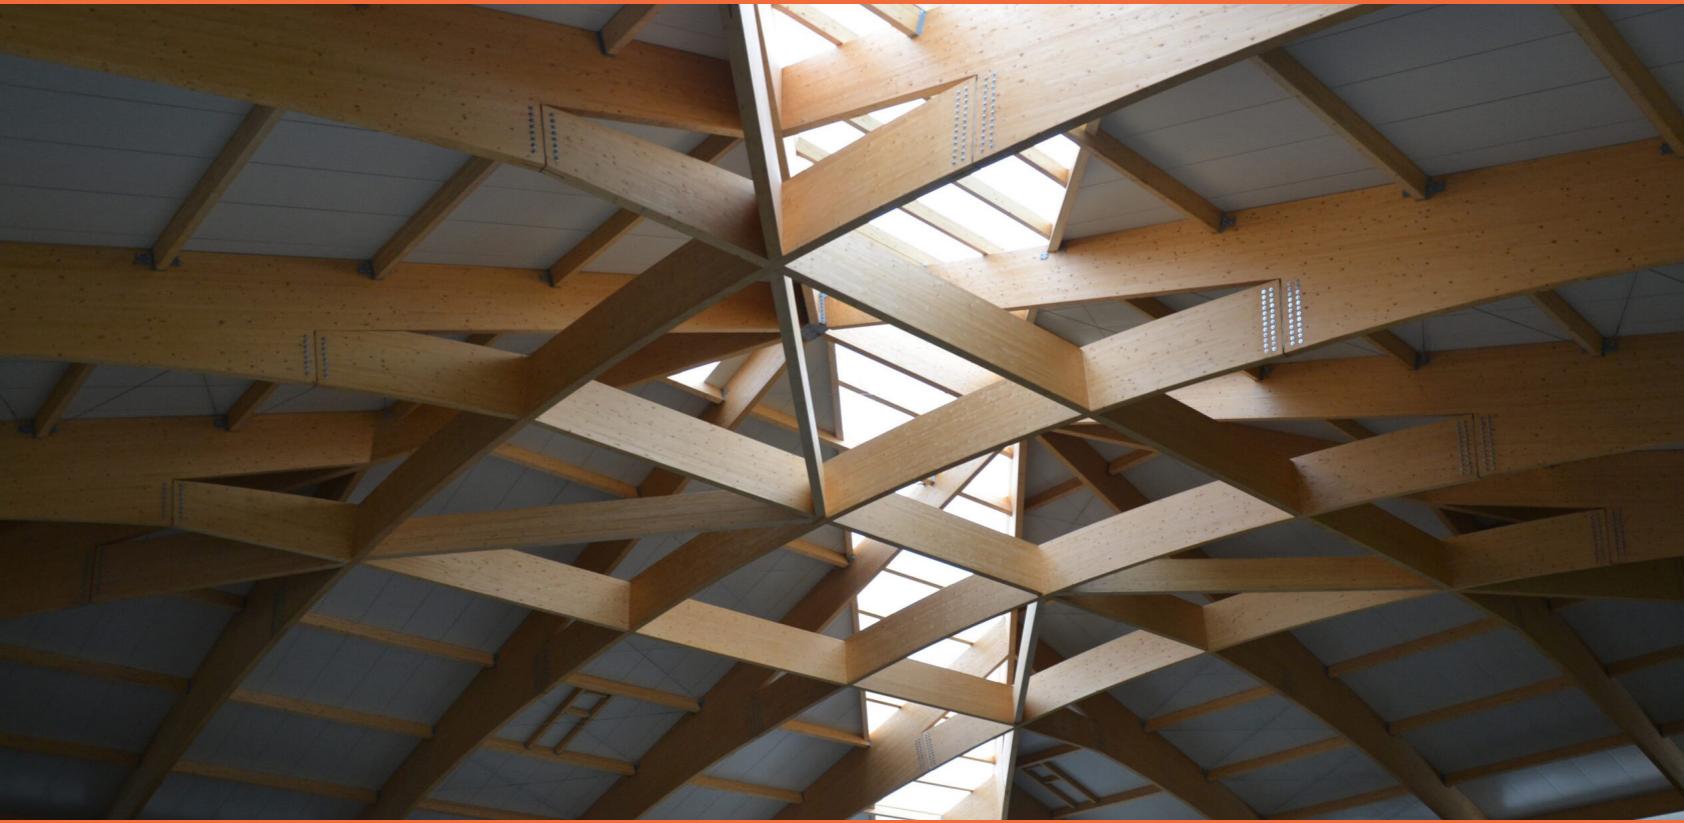

Made from prefabricated wood-based components and top-quality materials from renowned manufacturers, it guarantees safety, a healthy atmosphere for residents, and durability for years to come. The excellent insulation properties of the materials used, complemented by the latest solutions in heating, recuperation, and solar power generation systems, guarantee low operating costs. The house has a living room with a kitchenette, a bedroom, and a bathroom.

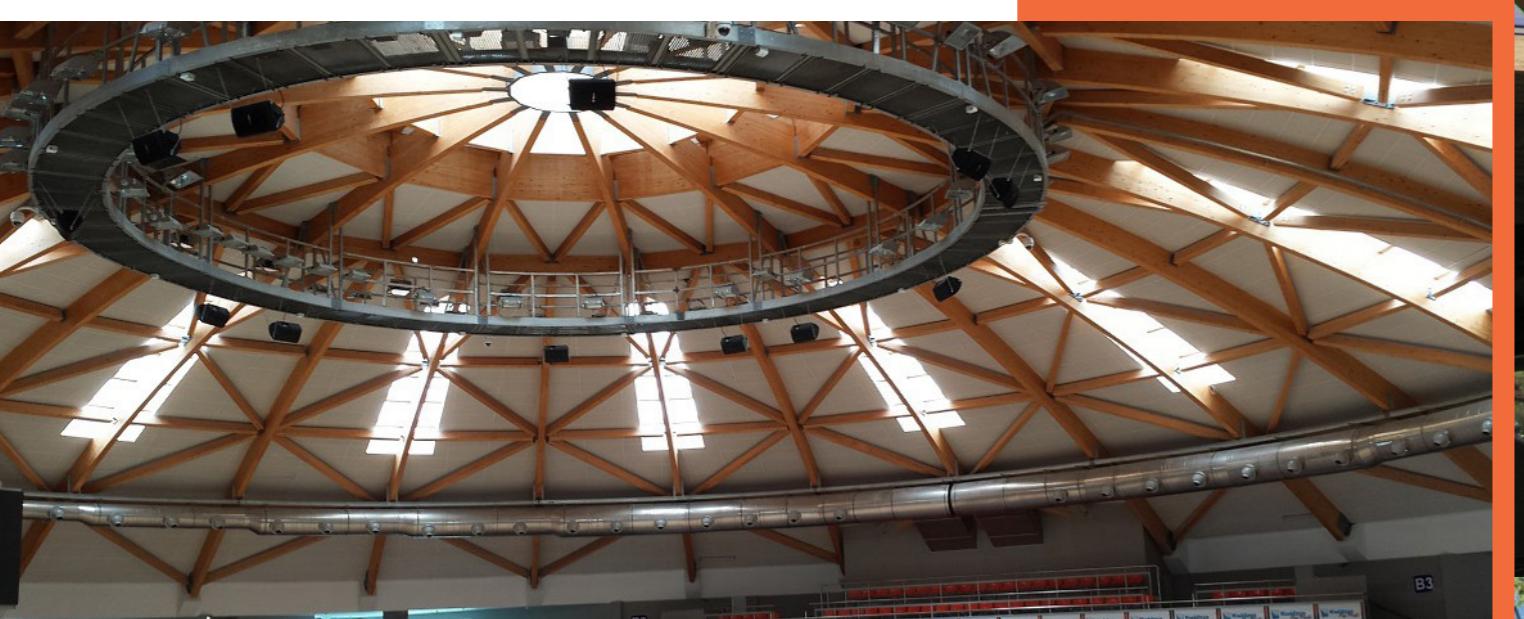

Comes in another variant that was built as an extension of a compact design, so its area allows for permanent residence for 2-4 people and includes all the amenities usually found in a traditional building. The building has an interesting shape, allowing for convenient use of the plot.

# CONSTRUCTION PROJECTS

We deliver diverse and ambitious construction projects — from public libraries and specialized facilities such as elephant houses, to complex undertakings like the Polish Antarctic Station. Our expertise ensures reliability across every scale and challenge.

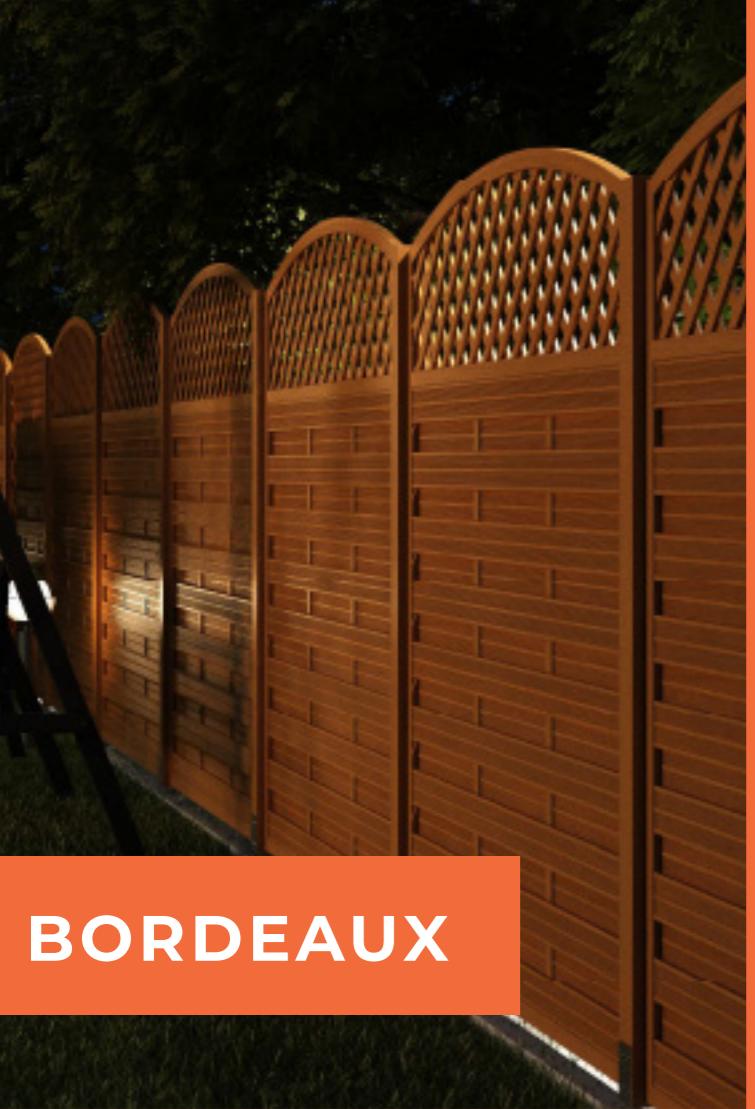

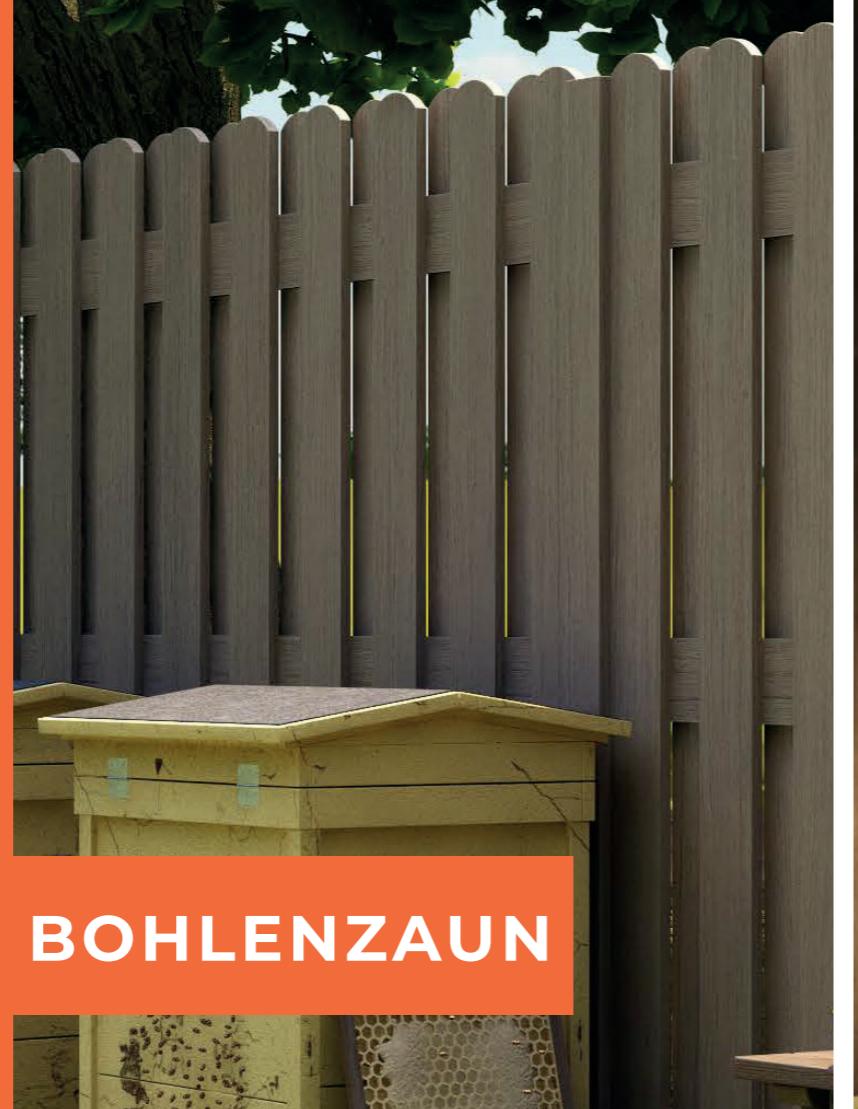

# FENCES

A garden fence is more than just a boundary—it ensures privacy, safety, and comfort in everyday life. The right choice of fencing creates a sense of intimacy while reflecting respect between neighbors, making it an essential element of every harmonious outdoor space.

# WOODEN POTS AND LATTICES

Our planters make it easy to grow fresh herbs, vegetables, and trendy microgreens right at home—whether in a spacious garden, on a patio, or even a small balcony. They are simple to use, cost-effective, and increasingly popular among both seasoned gardeners and those seeking healthy, sustainable living. A perfect way to care for yourself and the planet.
